Rainware Components

1 - Box Gutter
2 - Box Miter - Outside
3 - Box Miter - Inside
4 - End Cap - Right
5 - End Cap - Left
6 - Slip Joint Connector
7 - Downspout
8 - Elbow A
9 - Elbow B
10 - Wrap Around Hanger
11 - Hidden Hanger
12 - Fascia Bracket
13 - Ferrule
14 - Oval or Rectangle Drop Outlet
15 - Wire Strainer
16 - Pipe Band
17 - Pop Rivets
18 - Gutter Sealer
19 - Spikes
20 - Downspout Clip
21 - Leaf Protector
22 - Splash Block
23 - Downspout Hinge

</table>

To process an order for a spin down quantity, determine the number of pounds based on the requested footage by the contractor. Enter the number of pounds on the ticket noting the required footage. After spinning down the required coil footage, re-weigh the coil to verify the actual pounds of coil taken out of inventory. Note the actual weight in shipped column of the ticket. Update the tickets to adjust the invoice accordingly. This process ensures proper invoicing and accurate inventory levels.

These coils are cut from master coils which are slightly thicker in the middle to avoid oil canning during the painting process. The gauge can vary slightly depending on where the coil was cut from the master coil. Inventory will vary if the product is sold by footage and not weight. Remember, product is purchased by the pound. Re-weighing is necessary for accuracy.

</tbody>
</table>

Variable degree elbows are used to go around obstructions (ledge jumpers) or transition to the slope of the roof. Number of crimps to create angle can vary with manufacturer.

15°, 22°, 30°, & 45° Elbows also available. Please check color availability with our customer service rep.

Part #’s for “A” 2 x 3:
- 15° = GAE8123
- 22° = GAE8223
- 30° = GAE8323
- 45° = GAE8423

Part #’s for “B” 2 x 3:
- 15° = GBE8123
- 22° = GBE8223
- 30° = GBE8323
- 45° = GBE8423

Part #’s for “A” 3 x 4:
- 15° = GAE6134
- 22° = GAE6234
- 30° = GAE6334
- 45° = GAE6434

Part #’s for “B” 3 x 4:
- 15° = GBE6134
- 22° = GBE6234
- 30° = GBE6334
- 45° = GBE6434

*Note: Extended lead time required for this part in these colors. **ABO2A34A not available in SI.

---

We have several varieties of offset downspout connections to transition gracefully over a brick ledge. You can eliminate the awkward look of a two-piece configuration with our choice of 1” to 6” away-from-the-wall options.

</tbody>
</table>

A 40’ section of gutter can potentially expand almost 3/8 of an inch from winter to summer moving the fasteners back and forth until the gutter falls down. Expansion joints are a preventive measure for excessive movement in the gutter, and should be mounted in place every 40’ of exceptionally long gutter runs.

<td>50</td>
<td>200'</td>
</tr>
</tbody>
</table>

#### NX Drop-In
The front attachment provides a firm hold to the front of the gutter and has a wide mounting flange for a permanent install. The mill finish aluminum screen is micro crimped for enhanced durability.

<table>
<thead>
<tr>

<td>25</td>
<td>100'</td>
</tr>
</tbody>
</table>

#### Powder Coated Screens
Our special powder coating is designed to uniformly cover all surfaces and contains UV Inhibitors for extra durability. Our coating is distinguished by the smooth feel of the finish.

Conventional powder finishes don’t coat the entire mesh which leads to corrosion and product failure. You can easily identify these products because they feel rough due to the inconsistency of the coating on the surface of the screen.

#### NX Lock
The small hole screen system installs quickly without disturbing the shingles with its front and back snap lock system.

<table>
<thead>
<tr>
<th>Part #</th>
<th>Description</th>
<th>Colors</th>

<tr>
<td>GGP7LSHBK</td>
<td>Galvanized 7&quot; Lock</td>
<td>BK</td>
<td>28 ga</td>
<td>25</td>
<td>100’</td>
</tr>
</tbody>
</table>

#### NX Step Down
The small hole screen incorporates a raised snap-in system in the back of the gutter to seal off the void between the shingles and the screen. Step Down installs quickly without the use of screws or disturbing the shingles.

<table>
<thead>
<tr>

<td>Galvanized 6&quot; Step Down</td>
<td>BK</td>
<td>28 ga</td>
<td>25</td>
<td>100’</td>
</tr>
</tbody>
</table>

#### NX Premium Lock
The tiny holes keeps out small debris, while allowing water to flow through the screen. Two stiffening beads run down the center of the screen for added strength. Installation is quick and easy without disturbing the shingles. The screen locks into place with a raised back and front-tiered mounting system.

**NOTE:** All products and colors may not be available in specific supply centers. Contact your Territory Manager for local availability.
**NX Smooth Flow**

The perforated cover installs easily without disturbing the shingles. Product is factory notched for easy overlapping. Dual center ribbed bends provide extra rigidity against expansion and contraction. Six 50-count bags of #6 hex head 3/8 stainless steel painted screws are included.

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

**NX Master Flow**

The snap in perforated panels are installed without disturbing the shingles and without the use of screws. The patented curved back portion keeps the contoured front mounting system in place, provides a gentle transition of rainwater on to the panel, blocks debris from depositing in the back of the gutter, and is not obstructed by screw hangers.

**NX Snap-In Dome Cover**

This unique solid dome cover is designed for maximum debris load and is one of the easiest dome cover systems to install. The dome cover snaps in without the use of brackets or screws and doesn’t disturb the shingles. Snap-In Dome is available in several colors to enhance the curb appeal of your home by blending in with the roof line.

The Norandex® product catalog provides information on their aluminum rainware, siding accessories, soffit, fascia & trim coil. The warranty section outlines the coverage, limitations, and exclusions for their products. The warranty is limited to the life of the property, with exclusions for certain conditions such as normal wear and tear, accidents, and acts of God. The catalog also includes a list of products covered by the warranty, such as aluminum soffit, fascia, trim coil, gutter, and rainware accessories. The warranty is transferable and covers the cost of labor and material for the installation and maintenance of the products.
**Buy Norandex™ products with confidence knowing that:**

- Norandex™ steel rainware products carry a limited lifetime warranty.
- Material and Labor is covered.
- Doesn’t require registration.

Norandex™ manufactures Steel Rainware & Accessories including Gutter Coil in accordance with high standards and tight quality controls. The Products will not burn or support combustion, or split or crack due to cold weather because they are made of steel.

**WHAT DOES THIS WARRANTY COVER?**

Norandex™ warrants to you, the owner of the property at the time the Products were installed, that the Products are free from defects in material and workmanship in the course of manufacture, and that the finish on the Products will not chip, peel, flake or blister under conditions of ordinary wear, if installed according to local building codes and industry specifications. This warranty excludes any areas of the material that are within ¼” of any edge that has been cut subsequent to the application of the paint to the substrate. This Warranty is limited to the terms and conditions, exclusions and limitations, requirements and legal rights stated in this Warranty.

**HOW LONG DOES THE COVERAGE LAST?**

If you are an individual, this Limited Lifetime Warranty lasts for the life of the property on which the Products were originally applied ("Property") for as long as you own the Property. If you are not an individual (e.g., you are a corporation, condominium, cooperative housing arrangement, unincorporated association, school, church, government or public entity, etc.), the warranty period will be 50 years from the date of original installation of the Products on the Property, prorated as outlined in the Warranty Coverage Schedule contained within. This Limited Lifetime Warranty is limited to the original owner. Coverage will be 100% for ten years after the installation and prorated after that period. See Warranty Coverage Schedule section for details of prorated coverage.

**WHAT WILL WE DO?**

You must notify us in accordance with the notice requirements outlined below, and we must validate the complaint. In the event the manufacturer is denied access for an inspection, this warranty is null and void. Upon the notification and validation, we will undertake the following: We will repair, replace or refund the purchase and installation price of the defective portion of our product that blisters, checks, crazes, flakes, peels or weathers unevenly due to a defect in our manufacturing process. Our obligations under this warranty will in no event exceed the purchase price of the Products found to be warrantable and the cost of the labor involved in the original installation of such defective Products. Any additional costs and expenses beyond these amounts are your responsibility. Norandex™ will not pay or be responsible for any costs associated with or related to anything else affixed to the Material or building’s roof, including but not limited to solar panels, or television antennas, moisture sensors, etc.

In the event of repair, replacement or refinishing under this Warranty, the Warranty applicable to the replacement material or to the repaired or reinstalled Products will extend only for the time remaining under the original Warranty. If we elect to repair or replace Product under this warranty, we will also cover the reasonable labor costs for the applicable area, as determined by us.

**WHAT DOESN’T THIS WARRANTY COVER?**

This Warranty does not cover damage of any kind resulting from:

- Product that is stored in situations where standing water is covering the surface for prolonged period of time;
- Faulty or improper installation, including "oil canning" waving, buckling, or other distortions;
- Installation of our Product in direct contact with dissimilar materials as discussed in the final section of this warranty;
- Cracking or crazing of the Product’s paint surface due to field formation of Products in cold temperatures; or material that has bends less than 2T for a sheet thickness of 0.0299” and thinner and bends less then 4T for a sheet thickness of 0.0300” and thicker.
- Changes in surface color resulting from chalking, fading, soiling or staining. Exposure to the elements may cause these changes over time; the degree to which weathering occurs will vary depending on air quality, the building’s location and other local conditions over which we have no control;
- accidental damage;
- settlement;
- structural shrinkage or distortion of the property structure;
- fire;
- lightning, hurricane, tornado, windstorm, earthquake, hail, or other acts of God;
- harmful chemicals (including harmful cleaning compounds and pesticides);
- fumes, volcanic smog, or vapors; Warranty for material is not given within 30 miles of volcano.
- surface deterioration due to air pollution or seacoast environment; (no Warranty if installed product is within 1 mile of seacoast.)
- misuse or abuse;
- vandalism;
- airborne stains, mold and mildew accumulation;
- your failure (or the failure of subsequent Property owners) to provide reasonable and necessary maintenance of the Products (see "Care and Maintenance Instructions");
- impact of foreign objects;
- warping or distortion due to exposure to excessive heat sources (e.g., barbecue grills) or exposure to unusual or excessive reflective heat sources (e.g., window reflection);
- Products that have been painted or whose surface has been altered in any way will void the paint finish warranty;
- any other causes beyond our reasonable control; or
- Corrosion caused by contact with dissimilar materials, treated lumber, or direct salt spray.

**OTHER LIMITATIONS**

1. This Warranty covers only genuine Norandex™ Steel Rainware and Accessories, including Gutter Coil. It is your responsibility to verify that the rainware and accessories installed are our Products.
2. Products are designed and intended for use as small flashings and water diveters, and should not be used as roofing material.
3. Due to normal weathering, replacement Products may differ in gloss and color from Products originally installed on the Property.
4. We reserve the right to discontinue or change any design or color of any of our products at any time and without notice or liability. If, for any reason, Products of the type originally installed are no longer available from us at the time you make a warranty claim, we may substitute another product determined by us to be of comparable quality and price.
5. There are no warranties on these Products other than as set forth in this Warranty. We are not liable to you for a breach of any other written or oral express warranties, such as those, if any, given to you by dealers, contractors, applicators, or distributors of the Products.
6. We EXCLUDE AND ARE NOT RESPONSIBLE FOR ANY CONSEQUENTIAL OR INCIDENTAL DAMAGES ARISING OUT OF ANY BREACH OF THIS EXRESSED WARRANTY, OR ANY OTHER ORAL, WRITTEN OR IMPLIED WARRANTY THAT MAY APPLY TO YOUR PURCHASE, AS IT RELATES TO OUR PRODUCTS.
7. This Warranty gives you specific legal rights. You may also have other rights which vary from state to state. SOME STATES DO NOT ALLOW THE EXCLUSION OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THE ABOVE LIMITATION OR EXCLUSION MAY NOT APPLY TO YOU.
